

209745 ST-PS-12V Power supply unit 12 V

- For a battery-saving power supply operation of the sensor tester ST 7PNG
- For test processes on sensors having a power consumption more than 60 mA

Function

Technical data (typ.)

+20°C, 24 V DC

Electrical features

Connection voltage 100 ... 240 V AC, 50 ... 60 Hz, 800 mA

General features

Component Power supply unit 12 V
To be used for Sensor tester ST 7PNG

Output, input, interface

Output voltage 12 V DC (2000 mA)

Ambient conditions

Protection type IP 20

Electrical connection

Connection 1.4 m
Connection 2 Connector 3.5 mm / Socket 1.5 mm
Sensor-side connection 2-pin
