ST-AS

Sensor tester connecting set

- For testing sensors with switching outputs and M8 or M12 connectors
- Robust design
- High protection type of up to IP 67
- Sturdy metal union nut
- Turnable metal thread

Function

Technical data (typ.)

+20°C, 24 V DC

Mechanical features

Material

- Polyurethane (Cable)
- PVC (Connector)

General features

Component

Sensor tester connecting set

Characteristics

Robust design

To be used for

Sensor tester ST 7PNG

Consisting of

Connection cable 1m, M12, 4-poled, wire-end ferrules, Adapter connector - connector M12 / coupling M8 - 3-pin, Adapter connector - connector M12 / coupling M8 - 4-pin

Ambient conditions

Protection type

IP 67
